bug

VERSO

1

Electronic device worn on the body (smartwatch, fitness band) that tracks sleep, steps and heart rate.

VERSO

2

Connect two devices or apps so the same data appears on both. "The app syncs with my phone."

VERSO

3

A new version of an app or system that fixes bugs and adds improvements.

VERSO

4

A fault or error in a program that makes it crash or behave wrongly.

notification

FRENTE · 8 / 12

8

user-friendly

VERSO

5

Storing files on internet servers instead of on your own device — access them from anywhere.

VERSO

6

(Of a video, post or message) to spread very quickly across the internet.

VERSO

7

An alert message from an app — the sound, badge or banner that pulls your attention.

VERSO

8

Easy for an ordinary person to use, without training or a manual.

FRENTE · 12 / 12

12

to scroll (through a feed)

VERSO

9

Make a copy of your files somewhere safe, in case the device is lost or damaged.

VERSO

10

The controls that decide who can see your data, posts and location online.

VERSO

11

Computer systems that learn from data and perform tasks that usually need human thinking.

VERSO

12

Move quickly up or down through content on a screen — "I scrolled through the feed for an hour."
